Kung Fu Tea, Atlanta, GA — *Store Manager*

July 2017 – July 2019

- Managed staff of over 30 employees and reinforced strong team cooperation
- Maintained store including restocking, purchasing inventory and store repairs
- Assisted in pre-launch planning including store including store layout and grand opening

PROJECTS

ChrisNguyen.me — *JavaScript, HTML/CSS, React, Material UI*

Nov. 2023 – Dec. 2023

- Developed a professional portfolio website showcasing skills and projects using React.js
- Utilized Material-UI components to create modern and responsive project cards
- Implemented responsive web design principles, ensuring a seamless user experience across various devices

Dynamic Grocery List — *JavaScript, TypeScript, React Native, Firebase, Expo*

Jan. 2023 – June 2023

- Led a team in developing a cross-platform mobile application for collaborative grocery lists on iOS and Android
- Leveraged React Native framework to use native components for iOS and Android with one codebase
- Incorporated Firebase with FirebaseAuth for authentication and Firestore as a NoSQL database

Ready Up! Discord Bot — *Python, Discord.py, OS, SQLite*

Sep. 2021 – May 2022

- Developed an automated bot with Python for tier 2-3 professional gaming organizations
- Integrated with Discord to wait for user commands to start queues and schedule matches
- Multi-threaded tasks to use Schedule library and run bot processes in parallel
- Stored data using SQLite3 to store and edit server-specific IDs for multi-server use

Amazon Web Scraper — *Python, Selenium, Requests*

May 2020 – June 2020

- Utilized Selenium and Python to create a tool that retrieves data (pricing, ASIN, etc.) of various products
- Incorporated Requests library in order to query product names via HTTP
- Leveraged BeautifulSoup 4 to parse the JSON data returned by the query
